#### NEW-YORK TRIBUNE.

NEW-YORK, WEDNESDAY, OCT. 15, 1851.

Whig State Nominations. For Judge of Court of Appeals SAMUEL A. FOOT. Por Secretary of State JAMES C. FORSYTH.
For Controller GEO. W. PATTERSON. For Treasurer .... For Attorney-General ..... DANIEL ULLMANY. For Engineer and Surveyor HEZ, C. SEYMOUR. For Canal Commissioner .... HENRY FITZHUGH. For Inspector of Prisons ... ALEX. H. WELLS. ELECTION ... TUESDAY, Nov. 4.

FROM NEW-YORK TO NINEVEH .- BAY-ARD TAYLOR'S first Letter under this head appears on our Sixth Page this morning.

#### Topics of the Morning.

The great topic of to-day, at least in these regions, is the Pennsylvania Election. That the contest would be a close one we were prepared for. But still the results, as far as we have received intelligence, disappoint us.

The news from Mexico, via New-Orleans, is exciting and important. The insurgents, or Liberators, as they are respectively called, have not received a check. They have taken the town of Reynosa and some field-pieces. The accounts from the capital represent the Mexican Government in great dismay and confusion.

The Atlantic, now in her fifteenth day, has not been heard from. Some uneasiness is beginning to be felt on her account.

The America (Cunard Line) is in her eleventh day from Liverpool.

The Majority for Cobb in Georgia, approaches 18,000. Among the news from that State, we find the death of Hon. T.

The new Consul to Havana is a Union Whig, and is highly spoken of.

The Jenny Lind furor at Buffalo scarcely surpasses the Hayes furor at Boston.

The funeral of Commodore Warrington was attended by the President, Gen. Scott and the Cabinet.

The Governor General of Canada has at length succeeded in forming a Cabinet. Doctor Rolph is President of the Council, and the new Ministry will be, it is thought, acceptable to the Liberals.

# The Great Exhibition.

On Saturday last, the Grand Exposition of the World's Industry-the first ever attempted-was closed to the public, and this day the Premiums awarded to Exhibitors will be officially proclaimed, and the Exhibition therewith brought to an end. We presume the repacking and removal of the articles exhibited will commence to-morrow, as the Russian Government is anxious to secure the return of its quota before the Baltic shall have frozen up, and the Turkish and several other Governments, it is known, are subjected to a heavy expense so long as the officers who accompanied and the vessels which conveyed their fabrics are absent. But for this consideration, we presume the Crystal Palace would have been kept open at least a month longer, for the public interest in its contents seems to have experienced no abatement but rather increased as the day of closing drew nigh. Probably three weeks at farthest will see that unprecedented, unequaled collection of the elements of Production and the marvels of Nature and Art-the total value of which is estimated by competent judges at Five Hundred Millions of Dollars-dispersed and on its way to every quarter of the earth.

When shall we look upon its like again ? The Crystal Palace itself, we are confident, will not be destroyed. It is a miracle of capaciousness, economy, strength and grace, and a greater triumph of Art and Genius than any thing it contains. It may be driven out of Hyde Park by local hostility and a desire to restore that magnificent drive and promenade-ground to its original proportions; but if it be, it can searcely fail to be recreeted elsewhere. Such a trophy of the might of Intellect, the world cannot willingly let die.

The Premiums awarded at this Exhibition are all Bronze Medals, of admirable design and workmanship, calculated to perpetuate the memory of the Exhibition and the merit of the successful exhibitors through ages. They are of two kinds-the Jury Medal. awarded by the several Juries to the articles of decided merit exhibited in their respective classes; and the Council Medals. awarded by the Council of Presidents of the several Juries, on the recommendation of those Juries respectively to their several sections, by these to the Council of Presidents, and there approved and ratified. It was intended that this Medal should be given only for Original Inventions or Discoveries of decided utility and merit; but the grounds on which it is conferred have been practically and considerably widened in the course of the investigations and awards. One Hundred and Sixty-nine only of these Council Medals' have been awarded in all -distributed among the several Nations

represented in the Exposition as follows

To Germany. To Austria... . 4 To Russia. 2 To Holland

To Spain ... To Turke Total, 169; but one is given for the same article exhibited in both Great Britain and France: so that the actual number issued will be but 168. The five obtained by citzens of the United States are awarded as Hanford. follows

To C. H. McCormick, Chicago, Illinois, for

his Virginia Resper.
To David Dick, Meadville, Western Penna., for his Ann. Friction Press.
To CHARLES GOODYLAR, New-Haven, Conn., for his India Rubber fabrics.
To W. Bond & Son, Boston, Mass., for an

To GAEL BORDEN, Texas, for his Meat-Bis-

We believe the above is a correct list of the Council Medals awarded to citizens of the United States if any error should appear hereafter, we will readily correct it. And if any surprise is expressed at the absence of A.C. Honns, and his Parautoptic Lock from the above list, we hope to be able to throw some light on that subject hereafter. For the present let it suffice that the awards were made before Mr. Hobbs ad, beyond cavil, demonstrated the insecurity of Chubb's Lock, and before he had even attempted to use up Bramah's. Were the awards to be made now, we have scarcely a doubt that Mr. Hobbs would obtain Council Medal with scarcely a show of opposition And it is not the fault of the Jury for his class (XXII. that one was not awarded to him in July.]

- Of the Jury Medals, which are awarded by the several Juries, subject to the revision only of the Section or Group of Juries having kindred Classes or Departments, and which are intended to indicate and reward decided merit of whatever kind, we think about Two Thousand are awarded, of which probably One Hundred fall to the share of entizens of the United States. Of these we have a knowledge only of those awarded by the Jury on which we served-that of Class XXII. for "General Hardware, including Locks and Grates." The Americans to whom Medals were awarded by this Jury were as follows:

To DAY & Newell, New-York, (represented by A. C. Bobbs.) for their Parautoptic Bank Lock., To W. Adams & Co., Boston, for their Combination

Bank Lock;
To McGregor & Lee, Cincinnati, for their Im-To G. A. Arrowsmith, New-York, for Jennings's To Charles Howland, New-York, for his Im-

roved Bell Telegraph; To Cornelius & Co., Philadelphia, for a Bronze To Silas C. Henrino, New-York, for his Salaman-

To Chilson, Richardson & Co., Boston, for Fur-The Cooking Ranges of M. Pond & Co. Boston, and Jackson's Annunciater; (a substitute for Bells in Hotels, &c.) entered by W. T. Brooks, N. Y., were

voted an honorable mention in the Report of this Jury. We believe one or two Stoves and several other articles in addition to the above were adjudged worthy of a Medal, but they do not appear on the list now before us, and may have been stricken off on - We shall publish a full and correct list

of Awards to American Citizens at the earliest practicable moment.

DR. BRANDRETH AND THE CANALS .- We cited the defeat of Dr. Brandreth's renomination to the Senate as an evidence that 'the party' in his District are hostile to the 'Speedy Enlagement' policy with regard to the Canals. The Evening Post seeks to parry the force of our statement by disparaging and ridiculing Dr. B., but in the course of its article says :

Dr. Brandreth was understood to be friendly to "Dr. Brandreth was understood to be friendly to be Nine Million loan—The Tribune asserts unqualifiedly that he was so—and in this respect he could not be an exponent of the public opinion of his District. The Democrats of that District, while they are ready to assent to any measure for carrying into effect the intention of the Constitution in enlarging the Canals with the aid of their revenue, hold the Nine Million law to be a gross violation of the Constitution, and hable to the greatest abuses and corruptions in its execution. They mean to represent its countries of the properties of the Constitution, and hable to the greatest abuses and corruptions in its execution. They mean to represent the countries of the friends of ricends to the Senate, nor would one of its friends, if he were a conscientious man, seek or desire a nomi-nation at their hands."

— Men of the West! do you hear? Dr. Bran-

dreth was thrown overboard because he was strongly suspected of favoring Gov. Hunt's plan of completing the Canals forthwith, by borrowing Nine Milhons for that purpose, which plan ' the Democracy of the Westchester District esteem a gross violation of the Constitution," and nean to repeal it if possible." So does the Post: o do two-thirds of the self-styled Democracy of New-York. And will you, Western friends of the Speedy Enlargement! be gulled into putting the State Government into the hands of these men by the juggle of putting up friends of the Nine Million project for the Legislature in your particular localities ! What can these men do if elected, if Chatfield & Co. rule the Canal Board Will you not see !

MOVEMENTS OF JENNY LIND .- We learn that owing to the lateness of the season and the consequent uncomfortable navigation of the Lakes Miss Lind has abandoned her intention of visiting Detroit, Chicago and Milwaukee, and will go no further west than Cleveland. There she will give one or two concerts, after which she will go to Cin cinnati, whence she will come to New-York. We have not heard whether she will sing at Pittsburg or not. In all, she proposes to give some thirty concerts, the last in this country. The series will be concluded in New-York, she will probably also appear here before visiting Boston and Philadelphia. The first concert is given at Buffalo to-night, where she gives a second on Friday. At Toronro it is prob' she will give two next week instead of one only as was at first intended. After that she will remain for some days at the Falls. She will not leave the country directly after the termination of the concerts, but will remain in the United States until the pleasant season of next year, when she will acieu to the New World and recross the Atlantic

Meeting of the Governors-Project of Finance -Revenues of the Church-Tehuantepec-Editor of the Siglo-Gambling-Cholera. respondence of The N. Y. Tribune.

Mexico, Wednesday, Aug. 20, 1851. Since the project of the meeting of the Governors of the States, for the purpose of creating permanent revenue, Congress has done nothing of any importance, and several days have passed without there being a quorum in the Chamber of Depu

The said Governors and other representatives of the States have held several preparatory meetings, in order to come to some definite determination as to what they shall do. Finally, to-day, they notified the Minister of Finances that they desired his project for creating a revenue, in order to have a base to guide them. I am aware of no other plan of Piña s Cuevas than the one embraced in his four celebrated propositions, of which I informed you some time ago, and which proved to be so unpopular. They were as follows, viz : To take from the States the three per cent, now collected on all the silver and gold extracted from their mines : to impose a general epitation tax, a contribution of four per cent. on all the real estate of the country, and a consumption du ty of five per cent. on tobacco. The revenue arising from these imposts, with the exception of that from tobacco, it was proposed to divide between the States and the General Government.

Nothing is said respecting the measures this body will recommend, but we wait the result with natience. It is not very improbable, however, an at tempt will be made to obtain the recommendation of the conferring of extraordinary faculties on the Ex-

The Monitor continues its attacks on the Church advocating the appropriation of the Church revenue It is a general opinion that if the former will not lend, the latter must take the responsibility of forcing them to do so. But the question is, how is this to be done with success when the consent of Congress is required! This is difficult to answer, but the Monitor rests its hopes of this on the favorable result of the elections as far as heard from assuring that the next Congress, which will meet in January, will be composed of those of the liberal

The great question of the day here now, and which The great question of the day here now, and which occupies the mind of every one who thinks, is that of Tehuantepec. The press has raised the cry of alarm, and the people are disheartened at the prospect of losing another large and valuable part of their possessions. They say they can do nothing to prevent it, should the people of the United States insist on opening that road. This not that which troubles them, but the idea is very general, and can not be eradicated from their minds, that the Americans will exect that part of their country, and as much more eract that part of their country, and as much more as will join them, into an independent State or States, and annex the same, in the course of time, to the United States. They do not believe that the matter will be confined to the Isthmus of Tehuantopec, but that, at the same time, this may declare itself independent of Mexico. Sonera and Lower Cahiforna will do the same.

The papers still complain of there being no adequate measures taken to prevent what they call an everywher of their territory.

It appears that two small vessels, the Almagre and Sarah, were seized at Goatracoalcos, and taken to Vera Cruz. This was disapproved of by the Commandant General of Vera Cruz, who offered to have them sent back there, and allow them to proceed on

their voyage home.

I know or nothing more being done by this Government respecting the Tehuantepec business than what I communicated to you on the 11th inst.

I mentioned that the Siglo had gone over to the opposition. It is now more mild in its tone, in consequence of the editor of the same having been threatened with a challenge from Robles, the Minister of War.) unless he should retract what was contained in one of his editorials respecting Tehuantepec, in which the Minister was attacked, or considered himself so. The editor, I am sorry to say, publicle straids. pec, in which the Minister was attacked, or considered himself so. The editor, I am sorry to say, publicly stated in a letter that he was not the author of it, nor did he know of its publication in his paper, and at once gave the name of the writer, (Colonel abren, one of the salaried writers for the Siglio) who was consequently sent out of the city within two hours under a strong escort, without, as he says, being allowed to take leave of his family. The two hours under a stole leave of his family. State of the Government, &c. NEW ORLEANS, Monday, Oct. 13, 1851. The steamship Yacht has just arrived from Brazos with dates to the 9th inst. The news from Northern Nexico is exciting. The "Liberating Army" was still on a successful move, and had taken the town of Reynesa, meeting but little resistance. One field piece and a quantity of other arms fell into their hands.

At last accounts, Gen. Canales, the Governor's of Tamaulipas, was approaching Matamoras, and Gen. Avalajos was on the way to meet him, whether as friend or foe is uncertain. It is supposed that Canales will assumed the chief command of the Revolutionists, an act that will isplease the American partisans. We have received Vera Cruz dates to the 4th

inst. Governor Letcher arrived at that port on the 1st of October, and immediately proceeded to the Capital. Accounts from the City of Mexico to the 7th of September represent the Government to be in great confusion, the treasury being at the lowest ebb and the Government resources almost annihilated. Many attempts had been made to form a new Cabinet, but all were ineffectual. The account of the revolution in the northern Provinces had not reached the Cap-

County, for the long term, and Noah P. Davis, of Orleans, for the short term. Free Soil Convention in Norfolk County-Coalition. Bosron, Tuesday, Oct. 14, 1851.

One of the stormiest political Conventions ever held in this State convened at Dedham, Norfolk County, to-day, where an attempt was made to form a coalition with the Free Soil and Demo-

cratic parties.

At the opening of the Democratic Convention the Old Liners got a majority of the Committee on Resolutions, and immediately reported a

on Resolutions, and immediately reported a scries, sustaining the Fugitive Law, and denouncing all attempts to repeal it as leading to near by, and as a direct attack upon the Constitution. They also denounced the Free Soil party as enemies to the Union.

The Convention was nearly equally divided between the Old Liners and the Coalitionists, and these resolutions, as may be supposed, plunged the Convention at once into the utmost disorder and confusion. The speakers on each side were hissed and cheered, hooted at and denounced, without stat. The noise was so great that no one could be heard. Motions were made to adjourn until after the election.

Mr. S. B. Bradford of Roxbury, who had been a few hours previously elected a delegate to the National Convention from Horace Mann's District, made a most reloquent speech, in which he becought the Democratic party to stand firm to the Union, remembering that the prestizes were that a glorious Democratic national triumph was probable, before which any mere temporary and local triumph paled into insignificance.

The vote was then taken on the Resolutions, A resolution denouncing a coalition with the Free Soilers was then taken up, when the elements of dis-cord again broke loose. At length the Convention, at 8j o'clock P.M., took the back track, and sy a small majority rejected the resolution condemning the coalition. by Yeas and Navs, and they were
